DETAILED ACTION

The following is a response to the amendment received on July 2, 2007 which has been entered.

Response to Amendment

Claims 3-5, 8 and 9 are pending in the application. Claims 1, 2, 6 and 7 are cancelled.

-The 103(a) rejection of claims 1, 2, 6 and 7 has been withdrawn due to cancellation of these claims.

Allowable Subject Matter

Claims 3-5, 8 and 9 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claims 3 and 8) a control unit controlling an engine and differential lock by limiting a positive and negative output torque of the engine to a maximum allowable level dependent upon which differential locks are activated wherein the lock is provided on each set of two sets of drive wheels and in combination with each and every remaining limitation of claims 3 and 8.

-(as to claims 4 and 9) a control unit controlling an engine and differential lock by limiting positive and negative output torque of the engine to a maximum allowable level wherein the level depends on which transmission ratio is selected in a transmission and receiving a signal indicating that at least one lock is activated and in combination with each and every remaining limitation of claims 4 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
